

Ideas for Earth Day/Week/Month Activities

- **Plant-based activities:**
 - Plant a succulent
 - Plant seeds in pots – kids can help and take them home, or they can go in the campus garden.
 - Pollinator seed planting
- **Waste-based activities:**
 - Waste Reduction Drive
 - Track your waste week - student competition. They can win dining dollars
- **Festivals/events:**
 - Art and Music Festival hosted by a student club...for example, bringing in things from outside to create art...a good community time to bring people together.
 - Event with Sustainability Awards
 - Tote bag decorating event
 - Community Hike to get a variety of people involved and talking with each other outside
 - Sustainable period products and donation
 - Make your own jewelry
 - Faculty talk about different issues in their classes across disciplines
 - Policy/advocacy initiatives
 - Get different clubs to do sustainability things related to their club
- It would be nice to figure out how to do more meaningful things that help us better connect to the land, especially since we are on stolen land.

Campus specific:

- **MSU Moorhead** will invite local vendors to campus to share what they do
- **BHSU:** one-day event (11-2) to share about environmental stewardship, conservation, promoting community
- **Central Community College:** Open to community
 - Mini mending table where people could repair clothes
 - DIY candles, terrariums
 - Climbing the wind turbine
 - Plant your own microgreens
 - Sust tours of the campus
 - Truck from Goodwill
 - Collaborative paper mural
